AQUAGUARD™

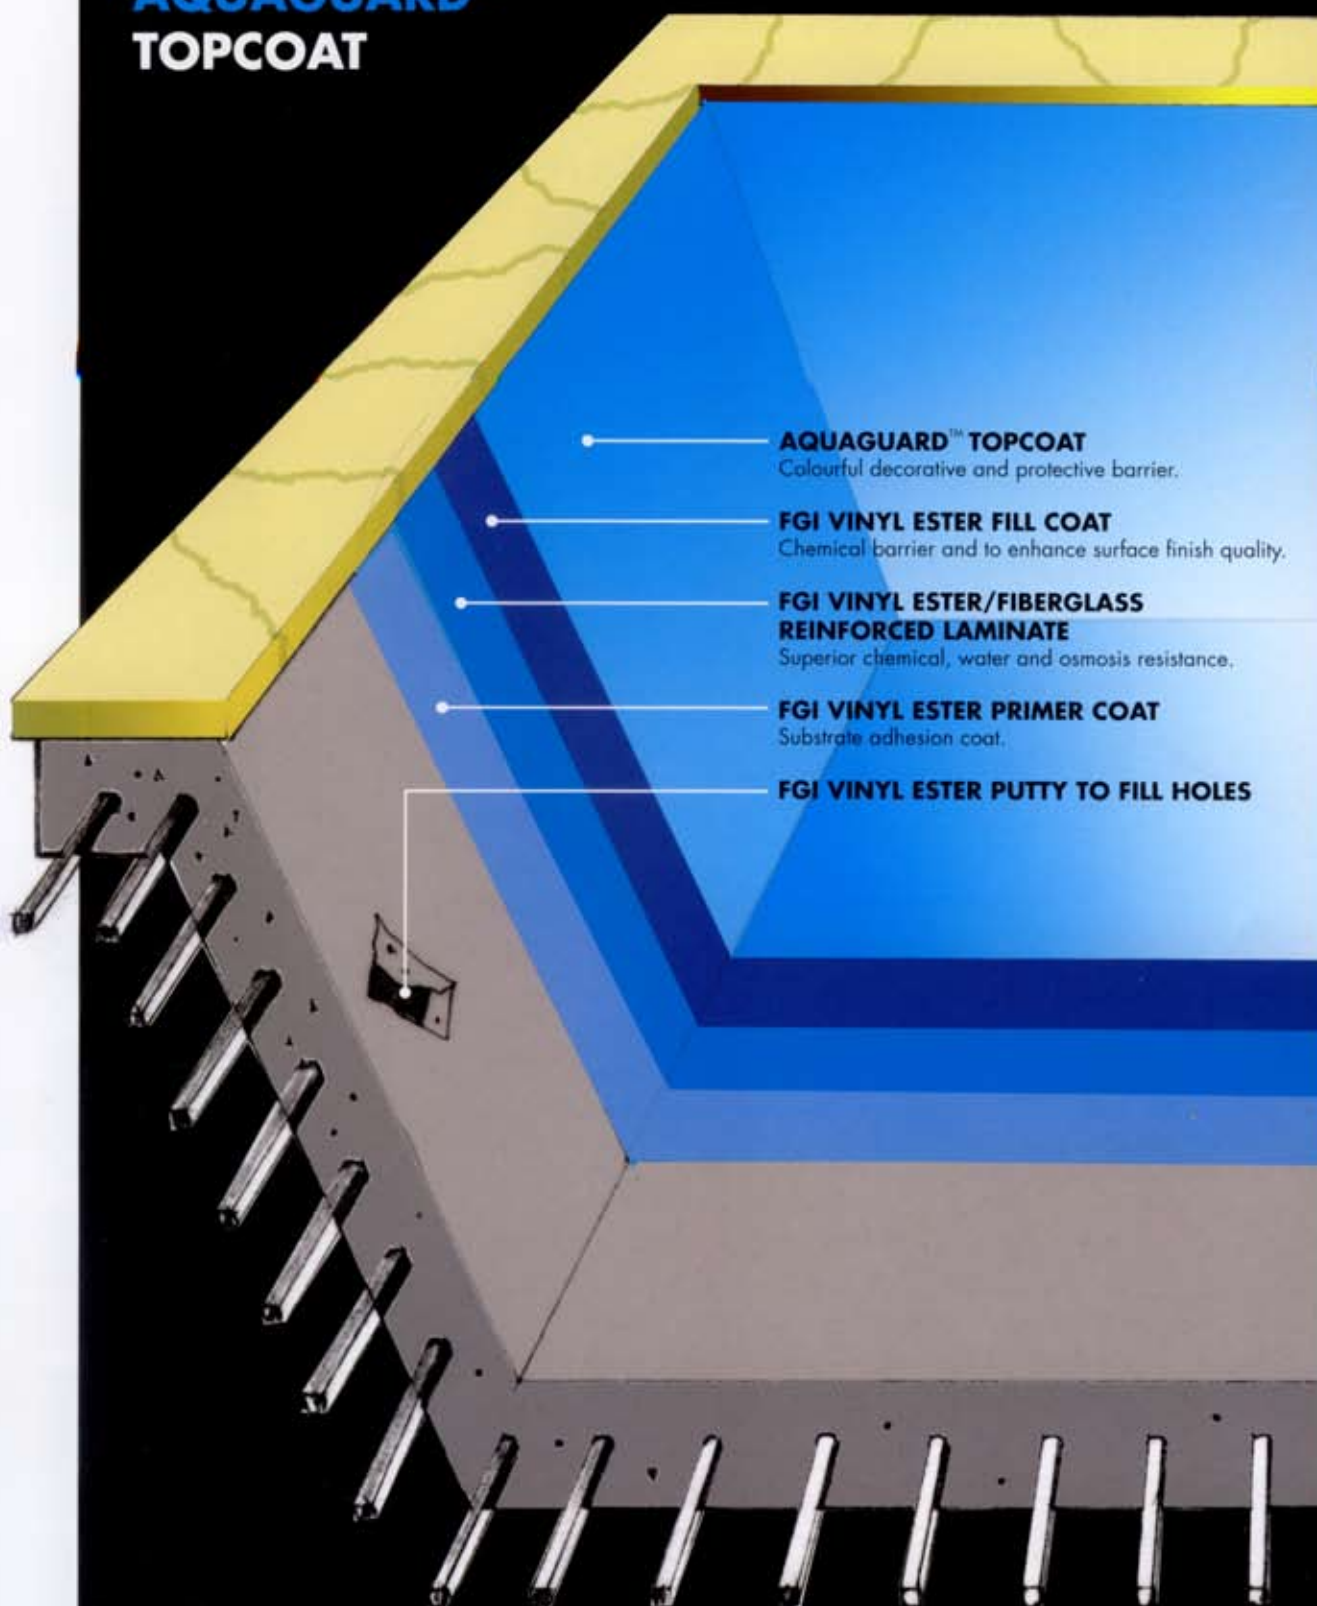

TOPCOAT

Pool Resurfacing System

It incorporated the latest development in decorative barrier coatings based on FGI's **AQUAGUARD™** technology. This combined with FGI Vinyl Resins selected for excellent chemical resistance and durability, with an unrivalled field history in the swimming pool industry. These technologies combine to rejuvenate and protect your pool – providing a decorative, long lasting and durable surface barrier system.

AQUAGUARD™ Topcoat (roller or spray application).

FGI Vinyl Ester Fill Coat – chemical barrier and to enhance surface finish and quality.

FGI Vinyl Ester – Fibreglass reinforced laminate, superior chemical, water and osmosis resistance.

FGI Vinyl Ester Primer Coat – substrate adhesion coat.

The **AQUAGUARD™ Topcoat** is available in roller and spray grades.

When selecting a colour, it should be remembered that the actual surrounding environment, light intensity and type of light will affect the appearance of the colour. Some colour change may occur with time.

This system should only be applied to prepared and structurally sound shells.
